WELCOME LETTER

Dear Colleagues:

On behalf of the Scientific Program Committee, we are pleased to bring you the 2020 IGCS Annual Global Meeting utilizing the most innovative interactive "xDigital" technology platform designed to truly immerse you into the meeting experience from the comfort of your home or office.

Despite the challenges of the pandemic, IGCS is committed to virtually provide our members and delegates around the world with targeted educational programming, the latest scientific research in gynecologic cancers, and interactive networking opportunities. The IGCS leadership, dedicated staff and our new digital technology partner, iCrossing has risen to the occasion, making every effort to transition the IGCS Meeting into an online environment to fulfill the mission of our society. We are overwhelmed and grateful for the support of our course directors, expert faculty, abstract presenters, and industry partners who have worked tirelessly to contribute to our program in an accelerated timeline.

Following the tradition of previous meetings, IGCS 2020 will provide you with the opportunity to learn about the latest clinical advances as well as international developments in research, practice, and treatment for the care of women affected by gynecological cancer. Concurrent educational programming will run on four channels at different times each day to ensure that our delegates in all parts of the world are able to participate in parts of the program. Many of the live sessions with have opportunities for audience participation through Q&A segments and polling.

In addition to the scheduled programming, we are thrilled to offer 24-hour access to the Meeting Portal where delegates can access the Digital Exhibition Hall for the latest updates and technology from our industry partners, the Surgical Film Cinema which contains 21 films, the Abstract Poster Hall with over 300 posters and nearly 50 audio files where the poster authors further explain their research and the IGCS Link which allows delegates to send personal messages to each other.

The Meeting Portal will remain open 10 days after the meeting until September 24th, giving delegates the opportunity to watch recordings of the educational sessions and to access all the other features mentioned above.

Perhaps now more than ever, it is important for the gynecologic oncology community to utilize novel virtual solutions to share research for the sake of caring for patients with gynecologic malignancies. IGCS has always served to unite the globe in the fight against gynecologic cancers.

Sincerely,

Roberto Angioli, MD
2018-2020 IGCS President

Thomas Herzog, MD
2020 IGCS Scientific Committee Co-Chair

Rainer Kimmig, MD

# MEMBER BENEFITS

## Professional Journal
The *International Journal of Gynecological Cancer* (IJGC) publishes original research, editorials, case studies, and more related to the treatment of gynecologic malignancies with a focus on international perspectives. **Video articles** and weekly **podcasts** enhance the learning experience.

## IGCS Annual Global Meeting
Take advantage of **discounted registration** to attend the IGCS meeting held in different global regions. Meeting participation is an excellent way to learn about issues affecting the profession, meet experts in the field, present your research, gain inspiration and participate in important initiatives.

## Voting Rights & Leadership Opportunities
Cast your vote to elect IGCS Council Members every two years and take advantage of **opportunities for involvement and leadership** within the Society. Apply for a seat on the Council or volunteer to serve on one of IGCS’s Committees or Work Groups.

## Project ECHO®
Participate in one of our regularly scheduled **virtual tumor board video conferences** held in various sites around the globe to discuss clinical cases and hear short lectures on a variety of topics. Join a session as a learner or take the opportunity to present a challenging case to gain valuable insights. More experienced members may participate as expert faculty contributors.

## Network & Collaborate
The IGCS Member Community – **Social Link** – connects you with over 3200 IGCS members around the world. Search the directory to locate colleagues and use the member forums to **discuss ideas, ask questions, and share information** about clinical cases, best practices, the latest research findings in gynecologic cancers, and more.

## SurgeryU Video Library
SurgeryU delivers high-quality, peer-reviewed surgical videos to members of the AAGL and partner societies such as the IGCS through a live and on-demand video library. The library contains **over 1200 surgical videos** to educate gynecologic surgeons of all levels on minimally invasive surgical techniques.

## Full Membership
Full Membership is open to gynecologists, gynecologic oncologists, medical oncologists, radiation oncologists, pathologists, fellows in training, nurses, physician assistants, data managers, clinical research associates or other clinical specialists, physicians or scientists with a major interest in the prevention, treatment or study of gynecologic cancer.

## Advocacy, Outreach & Engagement
IGCS unites advocates, advocacy groups, and professional societies around the world to **strengthen our voices** as we call for improved access to quality health care and **empower women** with tools and resources to increase their health care autonomy and enable them to act on the specific needs within their region.

2020 AWARD RECIPIENTS

Distinguished Advocacy Award

Nathalie Dauphin McKenzie & Innovating Health International
USA/Haiti
For courageous, ongoing advocacy for survivors-patients in the USA and Haiti, including traveling to Haiti several times a year—at great personal risk—to perform life-saving surgeries (otherwise unavailable) and to train oncologists to do the same, currently primarily through Innovating Health International, a Port-au-Prince based women’s cancer center, where no patient is ever turned away because of treatment costs innovatinghealthinternational.org

Runcie Chidebe & Project PINK BLUE
Nigeria
For outstanding advocacy throughout Nigeria and in global forums, including founding Project PINK BLUE—an organization focused on cancer advocacy, oncology training, and research—as well as influencing the establishment of the National Institute for Cancer Research and Treatment, developing numerous programs to serve the most needy, and changing cancer awareness and care throughout Nigeria projectpinkblue.org

Ovarian Cancer Research Alliance
USA
For dedicated service to advocate and research communities, as the largest global, non-government funder of ovarian cancer research, having raised over $100 million for research/services and developed and conducted extensive advocacy programs including Survivors Teaching Students® through which ovarian cancer survivors and family members have trained/reached nearly 100,000 medical and other health professions students ocrahope.org
